

Gabriela Aguilar – Frontend Developer

Bogota, Colombia | 3133207188 | contacto.gabriela.aguilar@gmail.com | [Portfolio](#)

PROFESSIONAL SUMMARY

I am a Web Developer specialized in WordPress and CMS platforms, with over 5 years of experience building fast, optimized, and conversion-oriented websites. I focus on custom website implementation, performance optimization, technical SEO, and ongoing maintenance, ensuring stability and scalability in every project. I also develop solutions using Webflow and other CMS platforms, adapting to the specific needs of each client and business.

Technologies and tools

React.js | Next.js | WordPress | Elementor | Tailwind CSS | TypeScript | Figma | Photoshop | Shopify | Angular | BEM Methodology | Atomic Design | Webmaster | Bricks | Webflow | Liferay | Gunterberg | N8N | Nexter | Webhooks

WORK EXPERIENCE

Freelance Web Developer (International Clients – U.S.)

Dec 2025 - Present

I develop and optimize WordPress websites using Gutenberg, Nexter, HTML, CSS, and JavaScript. I implement technical SEO improvements through Google Analytics and Google Search Console. I also create automations using n8n and webhooks to streamline processes and integrations.

LinkTIC, Colombia.

Oct 2024 – Feb 2025 | Jun 2025 – Nov 2025.

I developed and maintained WordPress websites, implementing optimization, security, and performance improvements. I also worked on frontend development using React and Tailwind CSS, and contributed to projects built with CMS platforms such as WordPress and Shopify, ensuring continuous technical enhancements.

For Beyond, Colombia.

Feb 2024 – Jun 2025

I participated in the maintenance and evolution of two web platforms, developing new sections and fixing issues using Angular 11 and React, ensuring stability and proper functionality.

Dilo Club, Costa Rica.

Dec 2023 – Mar 2024

I designed and developed the institutional website, managing the entire process from visual identity and logo creation to final implementation.

The Pole Garage, Costa Rica.

Aug 2023 – Sep 2024

I developed the academy's website (adricapon.com), including logo design and full implementation. Additionally, I managed digital content and provided client support to strengthen their online presence.

EDUCACIÓN

Higher Technical Degree in Computer Science. Instituto Universitario de Tecnología 'Antonio Ricarte'. Jan 2019 – Feb 2021

INTERESTS AND LANGUAGES

Python | Artificial Intelligence | Machine Learning | WordPress Theme and Plugin Development. Spanish – Native. English – B2
